

ARMY CALLS FOR NEW TRAINING PROCEDURE... "PLANT & TURN!"

Pictured right is Sgt. Tom "Rooster" Pucci, of the 9th Div., demonstrating the "PLANT & TURN" technique which he is credited for pioneering.

This supersedes the original technique or command known as "toe, heel, pirouette, oblique, 1/2 counter march.", forward." The Army was trying to develop something to counter the German's High Strutting "Goose Step". The only other idea considered was submitted by Pvt. C. Checker of the Colt 45 Regt., whose idea was predicated on footwork he called "the Peppermint Twist." Sgt. Pucci said the new technique "would save lives, time and money. Many do not realize the previous command was the reason for a great number of British Casualties during the 'Slow March' of death at Somme."
